

LINEKORA – Personal Data Inventory & International Data Flow Register

Company: NDIVE LABS LTD Platform: LINEKORA

#	Data / amakuru	Subject	Purpose	Service / destination	Country	Sensitive?	Outside RW?	Action
1	Amazina	Worker / Employer	Account & profile	Neon PostgreSQL	USA	Verify	YES*	Confirm production DB
2	Phone number	Worker / Employer	Login, contact, OTP	Neon + Firebase; SMS provider TO VERIFY	USA* / Verify	Verify	YES*	Confirm SMS/OTP provider
3	Email	Worker / Employer	Account & notifications	Neon; email provider TO VERIFY	USA* / Verify	Verify	YES*	Confirm email service
4	Authentication credentials	Worker / Employer	Login/security	Firebase / Google Cloud	USA*	Security	YES*	Confirm Firebase data settings
5	National ID number	Worker / Employer	Identity verification	Neon PostgreSQL	USA	YES (form)	YES	Confirm access/retention
6	ID front image	Worker / Employer	Identity verification	Neon, base64 per form	USA	YES / identity	YES	Confirm storage/deletion
7	ID back image	Worker / Employer	Identity verification	Neon, base64 per form	USA	YES / identity	YES	Confirm storage/deletion
8	Selfie	Worker / Employer	Identity verification	Neon, base64 per form	USA	YES – biometric (form)	YES	Confirm biometric retention/access
9	Profile photo	Worker / Employer	Profile	TO VERIFY	TO VERIFY	Verify	Verify	Identify storage service
10	Location	Worker / Employer	Matching	Neon / TO VERIFY	USA* / Verify	Verify	YES*	Confirm precision & source
11	Skills / education / experience	Worker	Matching & recruitment	Neon	USA*	No/Verify	YES*	Confirm DB region
12	CV / uploaded docs	Worker	Recruitment	TO VERIFY	TO VERIFY	Verify	Verify	Identify file storage + region
13	Job applications	Worker / Employer	Recruitment	Neon	USA*	No/Verify	YES*	Confirm DB/backups
14	Vacancy details	Employer	Recruitment	Neon	USA*	No/Verify	YES*	Confirm DB region
15	Company info / documents	Employer	Verification	Neon / TO VERIFY	USA* / Verify	Verify	YES*	Identify document storage
16	Messages	Worker / Employer	Communication	TO VERIFY	TO VERIFY	Verify	Verify	Identify messaging service
17	Notifications	Worker / Employer	Alerts	Firebase / TO VERIFY	USA* / Verify	No/Verify	YES*	Confirm push provider
18	IP / device / login logs	Worker / Employer	Security/audit	Vercel / Firebase / TO VERIFY	USA* / Verify	Security	YES*	Confirm log retention
19	Wallet / payment data	Worker / Employer	Wallet & escrow	LINEKORA + payment provider TO VERIFY	TO VERIFY	Financial	Verify	Map payment architecture
20	Transactions / provider refs	Worker / Employer	Reconciliation/accounting	Neon + payment provider TO VERIFY	USA* / Verify	Financial	Verify	Map payment flow

Confirmed by the uploaded form: Neon PostgreSQL is stated to run on AWS us-east-1 (N. Virginia, USA); Vercel is the serverless API/backend and frontend provider; Firebase/Google Cloud is used for authentication. The form states that user data, National ID, selfie and front/back ID are uploaded as base64 and stored in the US database, and marks Neon, Vercel and Firebase/Google Cloud as applicable processors. █filecite█turn2file0█L15-L26█

Legend: USA* = US infrastructure is indicated, but exact data-element location still needs technical/provider confirmation. TO VERIFY = not established by the uploaded form. "YES*" should be confirmed against the final production configuration.

NEXT MILESTONES

1. Developer confirms the actual production architecture and every service receiving/storing data. **2.** Confirm provider regions and backups. **3.** Identify processors/sub-processors and relevant DPA/terms. **4.** Define retention/deletion for ID, selfie, CV and logs. **5.** Document security/access controls. **6.** Map international transfers separately from storage. **7.** Use this verified register and evidence for the DPO outside-Rwanda authorization/change process.

Important: Items marked TO VERIFY are intentionally not guessed. They must be confirmed from LINEKORA's live code, cloud dashboards/settings and provider documentation before submission.
